K R S Road, Metagalli, Mysuru – 570 016

Date: 18.9.2024

**Title of the Event and name of the venue:** One Day Bootcamp on Utilisation of Artificial Intelligence for Career.

Venue: M.Sc. (CS) Lab.

**Details of the department organizing the event in collaboration with Institution's Innovation Council (IIC):**

Department of Studies in Computer Science (MCA)

**Purpose and scope of the event:**

The objective of this Boot Camp is Understanding AI's Role in Job Search.

**Details of the session:**

The programme started with welcome and introduction of the resource person by Smt. Meghana J, Assistant Professor.

In the interactive and hands on session, Mr. Suresh M.P gave a nice introduction about what AI is. He provided a comprehensive understanding of how AI is being integrated into various stages of the job search process. He highlighted the benefits and potential challenges of using AI for job seekers and employers. The session included:

**Exploring AI-Powered Job Search Tools:**

To explore different AI-driven job search engines and platforms that assist in finding the right job opportunities.

To demonstrate how AI can personalize job recommendations based on individual profiles.

**Optimizing Resumes and Applications for AI:**

To educate participants on how to optimize their resumes and job applications to align with AI-driven applicant tracking systems (ATS).

To provide practical tips on avoiding common pitfalls that might prevent resumes from passing AI filters.

**Enhancing Skills and Career Growth with AI:**

To discuss how AI tools can identify skill gaps and recommend relevant training or certifications.

To explore how AI can guide career development by suggesting networking opportunities and predicting career paths.

**Improving Interview Preparedness Using AI:**

To introduce AI tools that offer mock interviews and provide feedback on performance, helping job seekers improve their interview skills.

To discuss the role of AI in preparing candidates for real-world interviews through personalized coaching.

**Addressing Ethical Concerns in AI-Driven Recruitment:**

To raise awareness about the ethical considerations of using AI in job searches, particularly regarding biases and data privacy.

To promote a discussion on how AI can be used responsibly and fairly in the recruitment process.

**Engaging Participants with Practical Demonstrations:**

To provide live demonstrations or case studies of AI tools used in job search and recruitment, making the seminar interactive and practical.

To encourage participants to explore AI tools and techniques that can enhance their job search strategies.

**Facilitating a Discussion on the Future of AI in Job Search:**

To foster a discussion on the future trends of AI in job search and recruitment.

To engage participants in thinking critically about how AI might further evolve in this domain and its implications for both job seekers and employers.

**Resource person:**

Mr. Suresh M P, Generative AI Developer, Dream Buzz Solutions.

**Target audience and No. of Participants/beneficiaries:**

Total 50 students of Second Semester MCA.
