college premises - MCA Lab 1 and Lab 2 on the 7th of April 2025 from 10.30 am to 1.00 pm. A live computer project internship is crucial for final year MCA students as it bridges the gap between academic learning and industry practices. It provides hands-on experience in applying theoretical concepts to real-world problems, enhancing both technical and problem-solving skills. Through exposure to the software development life cycle, teamwork, deadlines, and modern tools, students gain a practical understanding of how IT projects are managed in professional environments.

The interview was conducted by Mr Vijayanand Gurudev, Mr Sreenidhi G.S.D, Smt Madhuri Gopal, Mr Harsha Srinivas, and Mr Chethan. A Personal Interview of each student was taken by the company professionals. They checked on the candidates LinkedIn profile and their technical skills knowledge . Around 37 students participated in the interview and as a result 14 students were selected for internship on live projects.
