Title of the Event and Name of the Venue
One-Day Visit to CFTRI on International Food Convention – IFCON-2023
CSIR-Central Food Technological Research Institute (CFTRI), Mysuru

Purpose and scope of the event

- **Research and innovation:** CFTRI is known for its cutting-edge research and innovation in the field of food technology. An industrial visit provides participants with an opportunity to learn about the latest advancements, innovative projects, and ongoing research initiatives in areas such as food processing, preservation, packaging, and nutrition.
- **Practical exposure:** Participants can witness practical demonstrations of food processing techniques, equipment, and technologies used in CFTRI's research labs. This exposure helps to bridge the gap between theoretical knowledge and real-world applications.
- **Food safety and quality:** CFTRI places significant emphasis on food safety and quality. Industrial visits allow participants to understand the importance of quality control measures, food safety regulations, and testing methods used to ensure the safety and nutritional value of food products.
- **Product development:** Participants can learn about CFTRI's role in developing new food products, ingredients, and formulations. They can observe the stages of product development, from concept to prototype, and gain insights into how innovative food products are created to meet consumer preferences and demands.
- **Nutrition and health:** CFTRI's research also focuses on nutrition and health-related aspects of food. Participants can learn about the formulation of fortified foods, functional foods, and dietary supplements that contribute to better health and nutrition.

Details of the CFTRI Visit

CSIR-Central Food Technological Research Institute (CFTRI), Mysuru is a premier Research organization established in 1950.

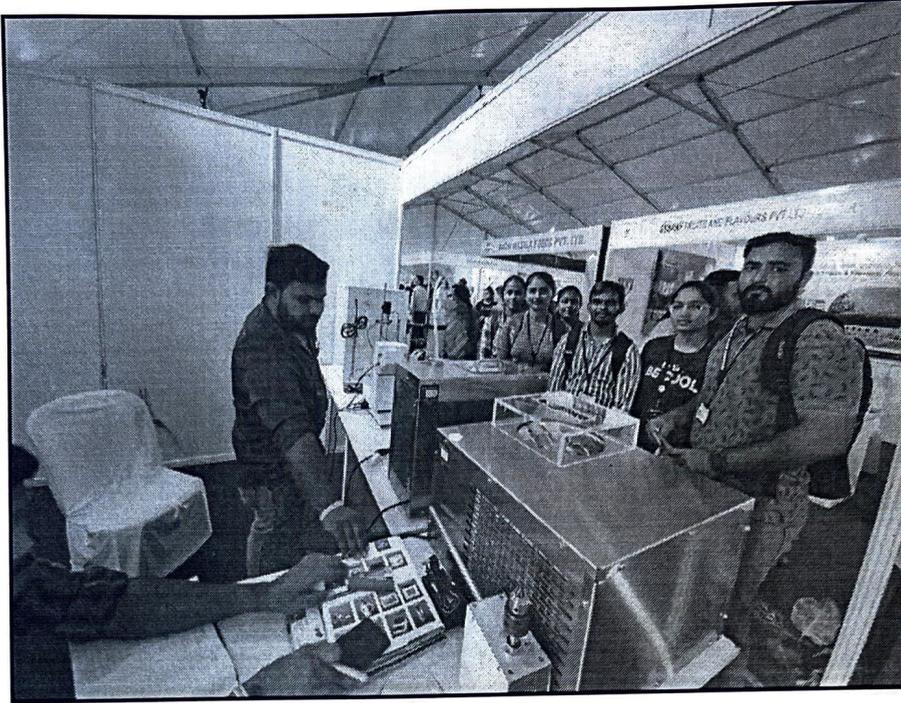

The ninth edition of the International Food Convention – IFCON-2023 –was held in Mysuru from December 7 to 10. This year's theme of the convention was “TRIMSAFE – Technology Re-engineering for Innovation and Mitigating the Risk for a Safe, Sustainable, Affordable and Secure Food Ecosystem.”

It was organized in association with Food Scientists and Technologists of India (AFSTI) with the support from the CSIR-CFTRI, DRDO-DFRL, and CSIR-Indian Institute of Toxicology Research, Lucknow the four-day convention was inaugurated by ISRO Chairman Dr S Somnath. The exhibition displayed more than 100 stalls on December 8th and 9th on the CFTRI campus. On the occasion of “International Food Convention – IFCON-2023” (9th December, 2023), CSIR-CFTRI intends to hold “Open days” during the 8th and 9th of December, 2023 for the public.

Department of Studies in Chemistry students and faculty members visited CFTRI, Mysore. About 45 students participated in the visit. The special displays showed the Research and Development work done at CFTRI as well as some products and machinery developed by the institute was showcased. The main theme of the convention is “TRIMSAFE – Technology Re-engineering for Innovation and mitigating the risk for a Safe, sustainable, Affordable and secure Food Ecosystem.” It was an opportunity to explore science as a career option especially for students and discussion with scientific staff about scientific and research activities.

The theme pavilion was focused on information about CFTRI Innovative Technologies with relevance to Entrepreneurship. A special pavilion on millets has been organized since the International Year of Millets is coming to a close, said CSIR-IITR Director Dr. N. Bhaskar.
